Hood Cleaners of America has become a leader in restaurant exhaust hood cleaning with operations in Quebec, Ontario, Alberta, and the U.S.

Our service standards, over sixteen years of experience in the restaurant service industry and the IKECA certification, give you the piece of mind that your need knowing that your kitchen exhaust system is free of dangerous grease buildups and preventing it from becoming a potential fire hazard.

Keeping It Clean

Hood Cleaners of America is committed to the protection of our environment. All our chemicals are Nature Friendly and all water residue resulting from our process is directed to the grease trap or to the sewer system, always avoiding the city storm sewer system.

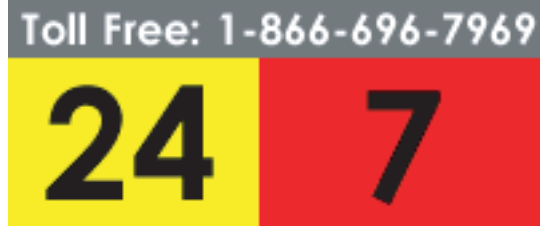

For more information about our environmental policies please visit our website at

www.hoodcleanersofamerica.com

IKECA Certified

Hood Cleaners of America is certified by the International Kitchen Exhaust Association based in Washington, D.C.

Being certified is key in our industry. Also, all our technicians fully comply with the NFPA 96 standards and offer our clients a reliable, secure and cost-effective options for exhaust maintenance.
